#### **Dr. Matt Poore**

Department Extension Leader and Ruminant Nutrition Specialist  
North Carolina State University

Dr. Matt Poore will be discussing forage rotation management, along with incorporating annuals to extend the grazing season. Dr. Poore will be joining us for the Cleveland, GA and Asheville, NC meetings.

#### **Dr. John Bernard**

Professor in animal and dairy science  
University of Georgia College of Agricultural and Environmental Sciences

Dr. John Bernard will be presenting on fermented forages and how to best preserve forage quality during the ensiling stage. Dr. Bernard will be joining us for the Monroe, NC and Statesville, NC meetings.

Also on hand will be King’s team of agronomists who will present on various topics and provide insight on selecting the highest quality forage genetics available.

#### **Topics Covered-**

- *Optimizing Fermented Forages*
- *Cheap vs. High Value Seed*
- *Cover Crops for Forage Systems*
- *Summer Annual Options- Reducing Aphid Pressure*
- *Perennial Pasture Options*

**And more...**

**LUNCH PROVIDED- RSVP TO THE HOME OFFICE @ (717) 687-6224**
