Milkway

Seeding Rate: 35–40lb/A
60% Meadow Fescue
40% Soft Leaf Tall Fescue

Milkway contains fescue varieties that test and perform well in TMR of high producing dairy. Milkway contains high yielding meadow fescue and extremely digestible soft leaf tall fescue cultivars. Milkway is the ideal grass blend for TMR silage rations.

Milkway is traffic tolerant and can sustain multiple manure or N applications. Excellent with or without a legume.

Key Features:
- All-grass blend of meadow fescue and soft-leaf tall fescue
- Traffic tolerant
- Works well with and without a legume
- Effective fiber and high energy to improve milk yield and butterfat
